The Greater Akron metropolitan area was ranked 14th among the top 50 metropolitan areas in the United States for European expansion. Source: *Expansion Management Magazine*, "Top 50 Cities for European Expansion" - 2003.

**Great market potential** is within an 8 hour drive (800km) of the region ... 50 percent of America's population, 55 percent of its manufacturing plants and 60 percent of its effective buying power – plus the majority of the Canadian market. Nationwide access is provided by 7 interstate highways. Over 160 trucking firms, 4 rail services, 2 airports and 4 deep water ports link the region with domestic and foreign markets.

**In the last five years**, more than \$1.5 billion in private capital was invested in 58 new plants, and 2,208 new jobs were created in the Greater Akron Region. In 2005, nearly \$409 was invested in 101 projects in the area, including 14 new plants and 87 expansions. The polymer and metalworking industries accounted for more than 50 percent of the investment.

**Trade advantages and tax savings** at Foreign Trade Zone #181, a general purpose zone near the Akron Canton Airport and many subzones throughout the region, make the region a cost effective location for international companies that are expanding into the North American market.

**The Greater Akron Region** is home to the largest number of polymer companies in Ohio and the industry employs more than 31,000 people in the area. In addition, more than 600 metalworking firms often combining in a unique industrial resource network, provide capabilities unmatched in the United States in areas ranging from steel manufacturing, metal finishing, heat treating, welding, complex machining, mold making and mold repairing using the best available technology, machinery building, rebuilding and design.

La région urbaine d'Akron a été classée 14eme sur les 50 premières régions urbaines des Etats-Unis en termes d'expansion européenne. Source : *Expansion Management Magazine*, « Les 50 villes ayant la plus forte expansion européenne » 2003.

**Un important marché potentiel** existe dans un rayon de 800 km (8 heures de route) alentour : 50 pour cent de la population américaine, 55 pour cent des usines de production et 60 pour cent du pouvoir d'achat plus l'essentiel du marché canadien. L'accès au reste du pays se fait par l'intermédiaire de 7 autoroutes inter-états. Plus de 160 compagnies de transport routier, 4 voies ferrées, 2 aéroports et 4 ports en eau profonde relient la région aux marchés nationaux et étrangers.

**Au cours des cinq dernières années**, plus de 1,5 milliards de dollars de capitaux privés ont été investis dans 58 nouvelles usines et 2 208 nouveaux emplois ont été créés dans la région urbaine d'Akron. En 2005, près de 409 millions de dollars de fonds privés ont été investis dans 101 projets dans la région, y compris 14 nouvelles usines et 87 agrandissements. Les industries des polymères et de la métallurgie représentent plus de 50 pour cent de cet investissement.

**Des avantages à l'export et des réductions d'impôts** dans la zone d'échanges internationaux n° 181, une zone d'intérêt général située près de l'aéroport d'Akron-Canton, ainsi que dans de nombreuses subdivisions à l'intérieur de la région, font de cette région un site d'implantation économiquement attrayant pour des sociétés internationales cherchant à développer leur présence sur le marché Nord-Américain.

**La plupart des sociétés de polymères** de l'Ohio sont basées dans la région d'Akron et cette industrie emploie plus de 31 000 personnes sur la région. De plus, plus de 600 entreprises métallurgiques, souvent regroupées en un réseau de ressources industrielles unique, offrent des possibilités inégalées dans le reste des Etats-Unis dans des domaines allant de la fabrication de l'acier aux traitements des métaux, en passant par le traitement par la chaleur, la soudure, l'usinage complexe, la fabrication et la réparation de moules en utilisant les technologies, la construction de machines, la rénovation et la conception les plus avancées.

Die Akron Metroregion steht in Bezug auf europäische Geschäftserweiterungen an 14. Stelle unter den 50 größten Metroregionen der Vereinigten Staaten.

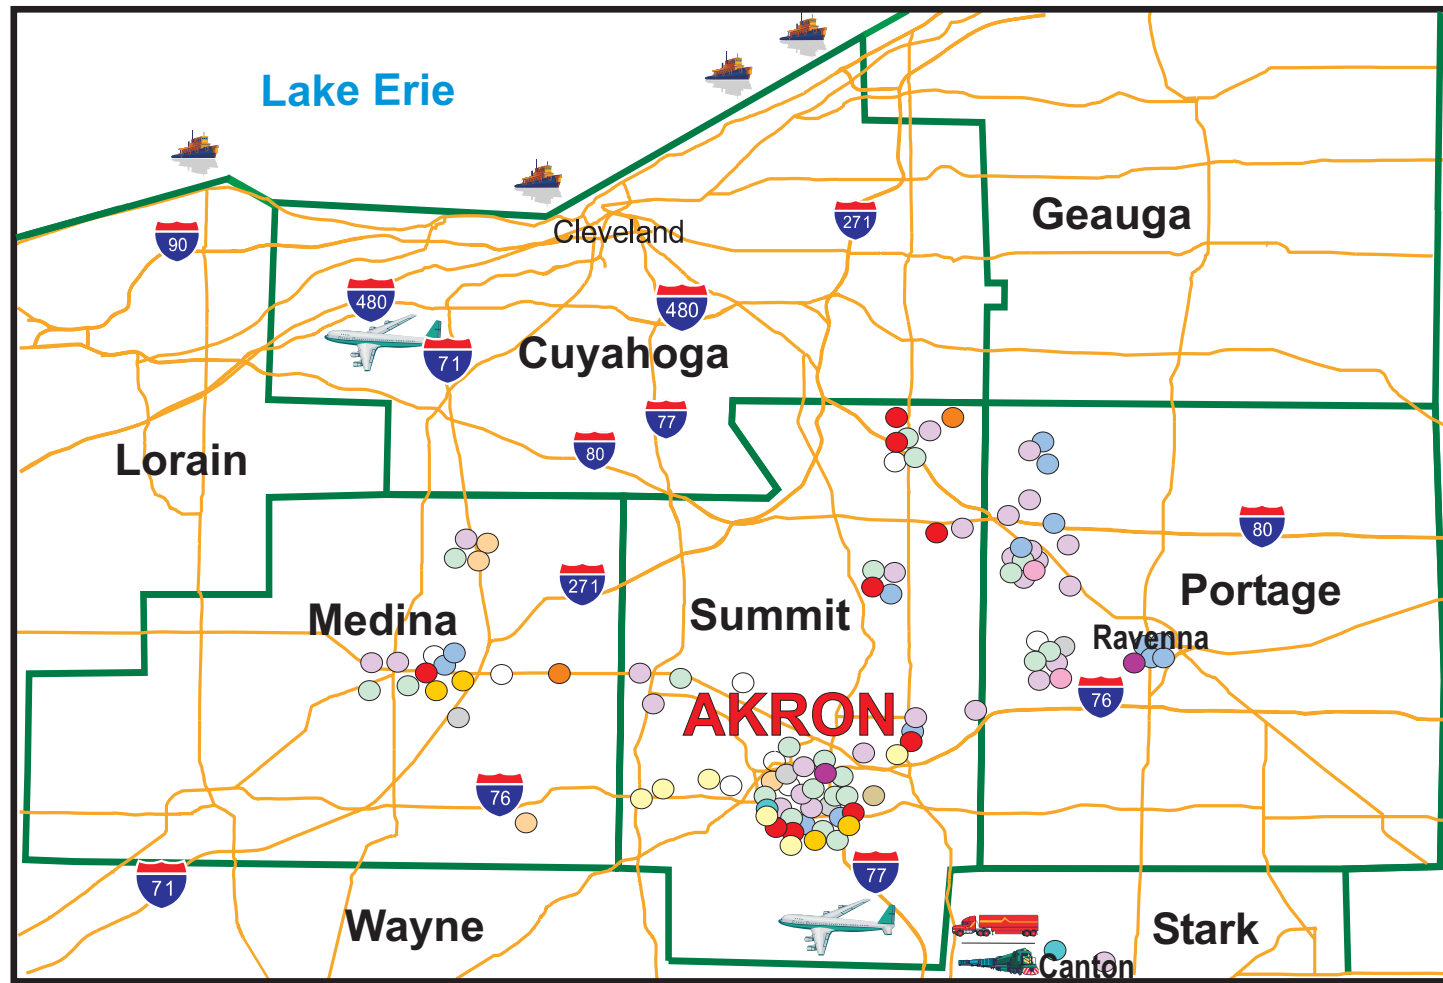

Quelle: *Expansion Management Magazine*, „Top 50 Cities for European Expansion“ 2003

**Ein großes Marktpotential** befindet sich im Umkreis von 800 km - acht Stunden Autofahrt - der Region ... 50% der amerikanischen Bevölkerung, 55% aller Herstellerbetriebe und 60% der effektiven Kaufkraft Amerikas plus ein Großteil des kanadischen Marktes. Zugang zu nationalen Märkten wird über 7 interstaatliche Autobahnen sichergestellt. Über 160 Speditionsunternehmen, 4 Eisenbahnen, 2 Flughäfen und 4 Tiefwasserhäfen verbinden die Region mit hiesigen und ausländischen Märkten.

**Seit 1988** wurden über 1,7 Milliarden Dollar Privatkapital für 62 Neuanlagen und 2.115 Anlagenerweiterungen in der Greater Akron Region investiert. Im Jahre 2003 wurden nahezu 200 Millionen Dollar Privatkapital für 307 regionale Projekte, einschließlich 7 Neuanlagen und 300 Anlagenerweiterungen, investiert. Die Polymerbranche und Metallverarbeitung sind für 66% dieser Investitionen verantwortlich.

**Handelsvorteile und Steuereinsparungen** durch die Freihandelszone 181, eine große Multizweck-Anlage in der Nähe des Akron Canton Airport und viele kleinere regionale Anlagen machen Greater Akron für internationale Firmen, die auf dem nordamerikanischen Markt expandieren, zu einer kostengünstigen Region.

**Die Greater Akron Region** beheimatet die meisten Polymerbetriebe Ohios, die hier über 31.000 Mitarbeiter beschäftigen. Weiterhin bieten über 600 metallverarbeitende Betriebe, die einem einmaligen industriellen Ressourcen-Netzwerk angehören, Kapazitäten wie nirgendwo in USA. Diese erstrecken sich über Branchen wie die Stahlverarbeitung, Metallherstellung, Wärmebehandlung, Schweißen, Spezialmaschinenbau, Gußformenbau und Gußformenreparaturen unter Einbeziehung neuester Technologien im Maschinenbau, -mbau und -design.
