

Automotive Industry in Ohio

- Ohio is at the center of the motor vehicle industry – 74.5% of North American light vehicle production is in Ohio or within 500 miles (800 kilometers) of its borders.
- Approximately 20% of the state’s manufacturing activity is related to motor vehicle production. With the inclusion of non-manufacturing activities, the total economic output associated with the motor vehicle cluster equals 15% of Ohio’s output, making it the dominant cluster in the state’s economic base.
- 8,000 automotive jobs are located in the tri-county region Medina, Portage and Summit Counties with Summit County ranking fifth largest County in automotive employment in Ohio.
- 17 different models totaling almost 1,748,000 light vehicles came from Ohio’s eight high-volume light vehicle plants during 2007 – over one-seventh of U.S. output and second only to Michigan. These include over 200,000 each of some of the nation’s best-selling models: Honda Accord, Chevrolet Cobalt, Chevrolet Cruze and Chrysler Jeep.
- 47 companies on Fortune’s U.S. 1,000 or Global 500 lists have industry plants in Ohio. Six of these companies’ world headquarters are in Ohio.
