*Moving Manufacturing into the Future*

January 11, 2010

### **Rossi Machinery Services, Inc Celebrating 15 years and a New Location.**

#### **CUYAHOGA FALLS, OH:**

Rossi Machinery Services, a full-service repair and rebuilding facility, announces that our company is celebrating its 15<sup>th</sup> anniversary.

“Our goal is to provide products and services that support our customer’s manufacturing efforts by helping to reduce downtime and offer solutions to improve our clients’ existing equipment,” said Michael Rossi, founder of Rossi Machinery Services, Inc. “For the past 15 years we have pursued the products, service capabilities and technicians to keep pace with the latest technological advances and trends in our field.”

Rossi Machinery Services, Inc. was founded in January 1995 and now employs a staff of 7 professionals. Originally, started as Machinery Repair Service in 1986 as a part-time venture, Mike Rossi who trained under a European Apprenticeship- style program grew his operation into a full-time venture through word of mouth advertising coupled with on time and precision service.

Rossi Machinery Services specialized in machine installations, alignments, CNC service and repair, and machine rebuilding, along with our distributorship of many quality product lines: Heidenhain, Fagor, Acu-Rite, Anilam, Renishaw, Rockford safety products, High Quality Tools’ milling machine parts, Acer Machine Tools. Recently we have found CNC upgrade solutions for older machines.

#### **Our New move:**

In October of 2009, Rossi Machinery Services moved into its new home located at 2479 Russell Street in Cuyahoga Falls to better accommodate our clients’ needs. At our 6200 square foot facility, we can now assist our customers with larger projects. Our strategic location provides easy access to all the major highways, ensuring our prompt arrival to keep our client’s up and running. Please watch our spring time announcement for an open house.
